Important Stuff To Know

1. Perhaps you need a departure shuttle to the Horizon on Saturday. Sign up at the office by Tuesday, and perhaps we will let you go home.
2. You may sign up for newspapers until 8:00pm Saturday night for Sunday and the rest of the week. The papers come in at 8:00am, Sunday through Friday. Please pick them up at the Office.
3. The Everything Book stays in the room throughout the Summer season. If you would like any of the information in the Book, the Office will make a copy for you! We are also able to provide a booklet with pictures of the Entire Staff. We would appreciate it if the pictures of the Staff on the board in the Stanford Room remain home.

"The outstanding scientific discovery of the twentieth century is not television, or radio, but rather the complexity of the land organism. Only those who know the most about it can appreciate how little we know about it. The last word in ignorance is the man who says of an animal or plant: "What good is it?" If the land mechanism as a whole is good, then every part is good, whether we understand it or not. If the biota, in the course of aeons, has built something we like but do not understand, then who but a fool would discard seemingly useless parts? To keep every cog and wheel is the first precaution of intelligent tinkering" -Aldo Leopold, from Round River
